

Curriculum Intent

We value Character, Competence and Community in our Geography curriculum:

Character

- Instilling a love of learning about the world around us.
- Celebrating diversity by exploring and celebrating a range of global places, cultures and traditions.
- Understand how our actions impact on others and the wider environment.

Competence

- Ensuring the very best outcomes for students using the latest research in cognitive science
- Developing curious learners who can apply their knowledge to the real world, expressing themselves eloquently and with confidence.
- Being able to answer complex questions by developing skills of critical thinking, analysis and evaluation.
- Developing confidence using geographical skills such as interpreting information from maps, graphs, data and photographs.

Community

- Helping students to sympathetically understand local, national and global communities
- Helping students to understand the interconnected nature of our world and their role in an ever changing planet.
- Helping student to become global citizens
- Providing opportunities for students to take action and become active members of society, championing for sustainable change.

Programme of study – Year 11

Subject: Geography

Oasis Academy Brislington: Curriculum

Year	11					
Rationale/narrative	<p>In year 11 students complete their AQA geography GCSE course and thoroughly prepare for their final exams. You can find the syllabus for this course using the web link below, along with other useful resources to support learning. https://www.aqa.org.uk/subjects/geography/gcse/geography-803. Other useful revision resources include AQA Geography revision guides produced by CGP and Oxford University Press. Students are also encouraged to attend additional Boost sessions.</p>					
	Autumn 1	Autumn 2	Spring 1	Spring 2	Sumer 1	Summer 2
Topic	Fieldwork skills Bristol and sustainability	Global resources Water management Mock 1	Revision and re-teach Mock 2	Paper 3 – Pre-release unit Revision	Revision and Final exams	Revision and final exams
Content	Harbourside fieldwork	Global access to food water and energy	Revision lessons	AQA Pre – release	Revision lessons	Revision lessons

	<p>Measuring and recording data</p> <p>Presenting fieldwork data</p> <p>Analysing and explaining fieldwork data and techniques</p> <p>Reaching conclusions</p> <p>Evaluation of geographical enquiry</p> <p>Unfamiliar fieldwork questions</p> <p>Opportunities and challenges of urban growth in Bristol</p> <p>UK population distribution</p> <p>Bristol's national and global importance</p> <p>Migration to Bristol</p> <p>Urban change and social opportunities</p> <p>Urban change and economic opportunities</p>	<p>Inequalities in global food, water and energy consumption</p> <p>Managing food, water and energy supplies in the UK</p> <p>Food imports, food miles and carbon footprint</p> <p>Organic farming</p> <p>Agribusiness</p> <p>UK water surplus, deficit and transfer</p> <p>Managing water pollution</p> <p>UK's changing energy mix</p> <p>Issues surrounding different energy sources</p> <p>Fossil fuels</p> <p>Fracking</p> <p>Nuclear energy</p>	<p>A range of revision and exam practice lessons to fill gaps in knowledge and understanding</p>	<p>Understanding the AQA resources</p> <p>Highlighting key facts and figures</p> <p>Identifying likely exam questions</p> <p>Practicing likely exam questions</p> <p>Revision lessons</p> <p>A range of revision and exam practice lessons to fill gaps in knowledge and understanding</p>	<p>A range of revision and exam practice lessons to fill gaps in knowledge and understanding</p>	<p>A range of revision and exam practice lessons to fill gaps in knowledge and understanding</p>
--	---	--	--	---	--	--

	<p>Environmental challenges in Bristol</p> <p>Air pollution and the Integrated Transport Network</p> <p>Domestic waste</p> <p>Dereliction</p> <p>Urban sprawl</p> <p>Social inequality in Bristol</p> <p>Social deprivation</p> <p>New housing in Bristol</p> <p>Example of urban regeneration – Bristol Harbourside</p> <p>Sustainable cities</p> <p>Features of sustainable living</p> <p>Sustainable living in Freiburg</p> <p>Sustainable urban transport strategies</p>	<p>Renewable energy</p> <p>Global supply and demand for water</p> <p>Global water consumption</p> <p>Global water surplus and deficit</p> <p>Effects of water insecurity</p> <p>Increasing water supply</p> <p>Large scale water transfer</p> <p>Example – Highland water project - Lesotho</p> <p>Sustainable water supplies</p> <p>Small scale water solutions</p> <p>Water conservation</p> <p>Harvesting and recycling</p>
